Description

The IPS9364 / IPS9368 is 36X Day & Night WDR 650TVL Speed Dome IP Camera. The high-speed dome is capable of streaming HD video at up to 30FPS. Featuring LILIN's Wide Dynamic Range (WDR) feature, the IPS9364 / IPS9368 captures highlights and shadows simultaneously, eliminating pixilation and smear. Combine this with 3D noise reduction technology and adaptive tone reproduction and the contrast of images in bright or dark areas is dramatically improved. Capable of making 360° continuous rotations, users can accurately position the camera to identify specific targets. The 36x optical zoom gives the IPS9364 / IPS9368 an impressive range. With a focal length of 3.3-119mm, 256 digital zoom, 650horizontal TV lines, and up to 128 programmable preset positions, the IPS9364/IPS9368 is ideal for numerous applications.

Further features include privacy zones, comprehensive scheduling, 2-way audio, weighted mode, digital PTZ, alarm activation by motion, audio detection, and 6 digital inputs. Connecting the cameras to your IP system is simple. Pair them with our NVR Touch series, and the installation wizard, WS Discovery, will locate all IP cameras on the network and generate a snapshot image of each channel. This will help with identification and greatly speed up camera setup.
