Description

The IPS6224 / IPS6228 is 1080P HD PTZ Dome IP camera. The high-speed domes are capable of streaming HD video at up to 30 FPS. Featuring LILIN's Wide Dynamic Range (WDR) feature, the IPS6224 / IPS6228 captures highlights and shadows simultaneously, eliminating pixilation and smear. Combine this with 3D noise reduction technology and adaptive tone reproduction and the contrast of images in bright or dark areas is dramatically improved. Capable of making 360° continuous rotations, users can accurately position the camera to identify specific targets. The 22x optical zoom and 10x digital zoom capacity give the IPS6224 / IPS6228 an impressive range.

With a focal length of 4.7-103.4mm and a compact design, the IPS6224 / IPS6228 is ideal for numerous applications. Further features include privacy zones, comprehensive scheduling, 2-way audio, weighted mode, digital PTZ, alarm activation by motion, audio detection, and 6 digital inputs.
