- HDR function up to 100dB
- Built-in highly sensitive microphone
- ONVIF Profile S supported
- Microdome IP camera
- Compact design and discreet low-profile form factor

Description

As with all M series cameras, the 4MP HD Dome IP Camera MD2242 incorporates Sense up+, a unique technology that delivers stunning video in low-light conditions. Utilizing intelligent image signal processing, auto gain control (AGC), and 3D Noise Reduction, the image of this model under demanding lighting conditions does not suffer from motion blur. The MD2242 is capable of producing three independent video streams, and different streams can be adjusted for different applications, depending on the individual user requirements.
