Description

One-button door station with high quality camera

Allows direct communication between you and your visitor. LILIN IPC0522 video call door station comes with an excellent intercom feature which provides echo free 2-way speech with visitors at the entrance. The unit supports SIP for easy integration with various IP phone systems and the use of PoE allows for installation with one single network cable. Combined with an integrated high definition camera with WDR and excellent Sense Up+ low-light performance, the unit offers day and night identification of persons at the door. Everything from single-family apartment unit to multi-family houses can be equipped with the LILIN IPC0522 video call door station. It effectively controls entry to your premises.
