Description

LILIN NVR116 is a 16-Channel IP standalone Network Video Recorder offering 25 frames per second for each channel at a full 1080P resolution. Touch screen, mouse, LILIN twist zoom keyboard or IR remote control, easy to navigate menus, supporting a 4-SATA hard drives. Motion detection, weighted and scheduled recording. Audio recording and playback, WS discovery for easy network discovery. NVR116 supports USB, network backup, and HD output. Full CMX support, web-based remote viewing & iPhone, BlackBerry and Android support.

The NVR 116 is unique, touch-screen interface takes advantage of highly intuitive smartphone-style

features like “pinch-n-zoom,” multi-touch and scrolling, and icon based menus, deliberately avoiding traditional PC-style screens. The touch-screen increases operator speed and minimizes the time taken to learn the system. The NVR 116 also has an automated installation wizard (WS Discovery) which locates all the cameras on the network and imports a preview picture of each channel to help with identification. This greatly speeds up commissioning. Users can easily export audio and video recordings to a USB, the NVR’s integrated DVD or to a protected part of a hard drive, using the drag and drop timeline. Remote viewing from smartphones is fully enabled, with iPhone, Android, Blackberry and iPad compatibility. The NVR Touch offers a superb standalone solution for managing and recording IP cameras.
