As with all Pro series cameras, IK10 vandal resistant rating Day & Night 3MP HD vandal resistant dome IR IP camera IPR6132X incorporates Sense up+, a unique technology that successfully delivers stunning video in low-light conditions. Featuring high-efficiency IR-LEDs provide 25 meters of light. Utilizing intelligent image signal processing, AGC control, and 3D Noise Reduction, this model successfully delivers the ultimate low-light image without motion blur. The IPR6132X is capable of producing four independent video streams, different streams can be set for different applications, depending on the individual user requirements. The IP67-rated housing is designed to help the camera body withstand rain and dust and ensures operation under a multitude of harsh weather conditions.

Wind and Rain Standards

Meet international IP67 standards for dust and moisture resistant allowing you to install cameras in environments subject to wind and rain

Sense Up+

Deliver outstanding video outputs in poor light conditions without experiencing motion blur. You can see video clearly even during nighttime without sufficient lighting support

Video Security App

Available on Android and iOS – LILIN Pro app provides security alarm push notification, real-time live viewing, and remote video playback

ONVIF-compliant

Open Network Video Interface Forum (ONVIF) is a standard for physical IP based security products. IPR6132X camera is ONVIF Profile S conformant

Tamper Detection

Automatically detects camera sabotage or failure. Detects any attempts to tamper with the camera – partially or completely blocking its lens or field of view

SD Cards in Sync with NAV Software

IPR6132X camera with built-in Micro SD/SDHC card slots can provide redundant video viewing and recording. You can synchronise an SD card with LILIN VMS (Video Management Software) – Navigator (NAV)

Two-way Audio Support

With 2-way audio communication, you can project your voice through the camera's speaker instead of hearing what's going on (1-way audio)

Impact Resistant

IK10-certified housing designed to protect the camera from destructive behaviour

Face Detection

Automatically detects a human face

Day and Night Operations via Removal of the IR-cut filter

IPR6132X camera was designed using a mechanical IR cut filter for increased IR sensitivity resulting in improved night time images. The removable IR-cut filter allows day and night operations even in the low lux condition providing outstanding vision

Motion Detection

Detect motion and capture the event. Motion in the selected area will provoke an alert

Alarm Detection

Alarm Detection is designed to provide the electronic detection of intruders

IR Infrared Night Vision

Infrared options with built-in LEDs that are able to see in almost complete darkness, providing clear, detailed video clarity at night-time for round-the-clock video surveillance

Wide Dynamic Range

An Wide Dynamic Range image is made by taking 3 frames of the same scene and each at different shutter speeds to display details of both the darkest and brightest areas. WDR can extend image visibility under high contrast lighting scenes and improve image quality
