

4-CH NAV Facial Recognition Recorder

Instruction Manual

FCC Information

This equipment has been tested and found to comply with the limits for a **Class B** digital service, pursuant to Part 15 of the **FCC** rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and the receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio technician for help.

Note: All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations. We recommend using a Dual-Link cable for DVI output.

Note: Only peripherals (input/output devices, terminals, printers, etc.) certified to comply with the Class B limits may be attached to this equipment. Operation with non-certified peripherals are likely to result in interference to radio and TV reception.

Caution

- Do not drop or strike the equipment.
- Do not install the equipment near naked flames or heat sources.
- Do not expose this unit to rain, moisture, smoke or dusty environments.
- Do not cover the opening of the unit with cloth or plastic or install this unit in a poorly-ventilated place. Allow 10 cm between this unit and its surroundings.
- Do not continue to operate the unit under abnormal conditions such as detection of smoke, strange smell, or malfunctioned screen whilst power is turned on.
- Do not touch the power connection with wet hands.
- To avoid unnecessary magnetic interference, do not operate this unit near magnets, speaker system, etc.
- All connection cables must be grounded properly CAUTION.

Features

- ONVIF Profile S, LILIN IP cameras, PTZ domes, and DVRs/NVRs are supported
- Up to 4 channels 1080P/3M/5M/8M network streaming and recording
- Built-in Hard Drive x 1, support up to 3 * 3.5" HDDs
- Dual streamings decoding mode supported
- Support facial recognition, up to 4 channels video display
- Support face search mode
- Support 4 channels playback for remote or local
- Built-in dual port Gigabit Ethernet

Product Overview

● The Front View of 4-CH Facial Recognition Recorder

● The Rear View of 4-CH Facial Recognition Recorder

● Rear Panel Connectors

1. PS/2 mouse/keyboard combo port
2. USB 3.1 Gen 2 Type-A port 3
3. Display Port
4. USB3.1 Gen 2 Type-A ports 1 and 2
5. LAN (RJ-45) port*
6. USB 2.0 Type-A ports 13 and 14
7. USB 3.1 Gen 2 Type-C™ port C4
8. HDMI port
9. Intel® USB 3.1 Gen 1 ports 9 and 10
10. Optical S/PDIF OUT port
11. Audio I/O ports**

Hard Drives Installation Instructions

● 3.5" HDDs Installation

1. Remove the top case. Attach the supplied quick release hard drive mount brackets in both sides of the hard drive and seal with the screws.

2. Slide the 3.5" hard disk into the hard disk caddy to complete the hard disk installation.
