

LILIN

DOME IR CAMERA

Installation Guide

Part Description & Dimensions

Unit: mm

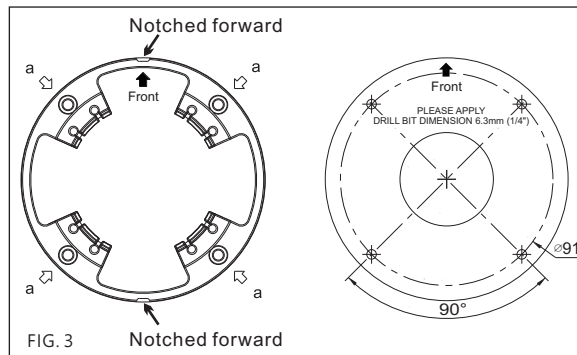

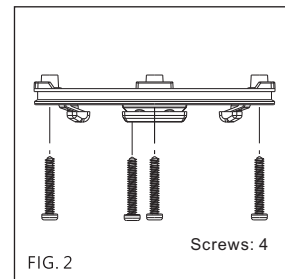

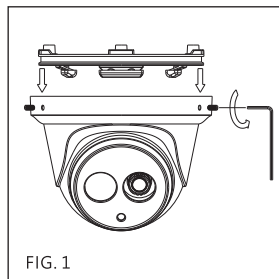

Installation

1. Retrieve the camera and remove the bottom bracket from the upper cover with a hex key (FIG.1).
Use the included screws (M4.0x25) through the holes marked as "a", and fix the camera in the desired location (FIG.2 & 3).

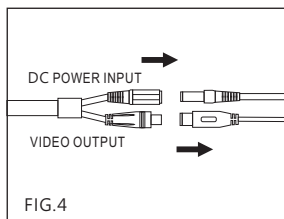

66-AHD652ACSE-3

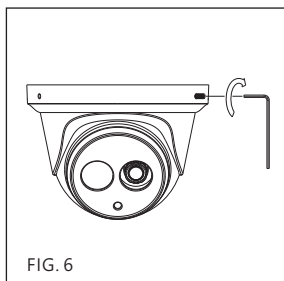

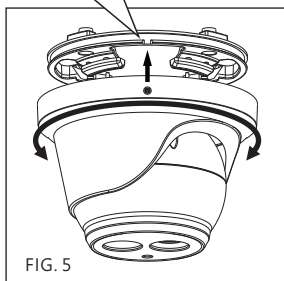

Warning: Do not throw your product in municipal waste.
This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical and electronic equipment) should not be placed in municipal waste. Check local regulation for disposal of electronics products.

2. Attach the power cable and video cable to the video output jack and DC power input jack, respectively (FIG.4).

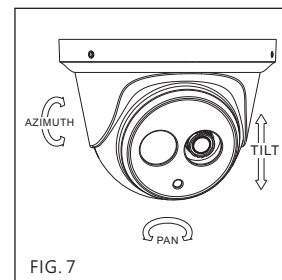

3. Align the hole on the left side of the upper cover with the notch on the bottom bracket, press in and rotate to the desired location (FIG. 5). Secure the upper cover to the bottom bracket with a hex key (FIG. 6).

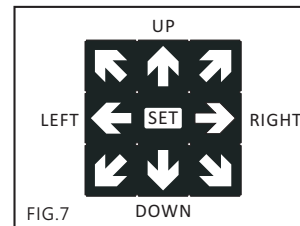

4. Adjust the pan, tilt, and azimuth of the camera to the desired location (FIG. 7).

- Make sure the light sensor is at the lowest side of the camera (FIG. 1).

5. Connect to an Up-the-Coax (UTC) digital recorder that supports AHD-Coaxial protocol. Then use the 8-directional buttons (FIG. 7) to adjust settings for the best images.
