Description

Speeddome PTZ cameras offer advanced optical zoom capabilities and physical PTZ (Pan-Tilt-Zoom) functions, providing exceptional flexibility in adjusting viewing angles and zoom levels.

With integrated AI capabilities, these cameras can automatically track subjects such as people, vehicles, animals, and boats, making them highly versatile for various applications. Designed for rugged environments, high-speed PTZ cameras are typically waterproof and vandal-resistant. Certain models also feature anti-vibration technology to endure harsh weather conditions and shock, as well as integrated spotlights to enhance alerting functions and improve focus precision.
